

LLP Group implements Infor SunSystems financial system for Almanac Hotels at premier 5-star hotels

LLP Group has seamlessly implemented the financial system Infor SunSystems at two luxurious 5-star hotels – the historic Esplanade Hotel Zagreb and the iconic Almanac Palais Vienna Hotel. Both hotels are operated by Almanac Hotels Group, which operates luxury hotels across Europe.

The implementation process, which commenced in 2022, brought improvements to the financial operations and has significantly eased the reporting process for Almanac Hotels. At the Almanac Palais Vienna Hotel, Infor SunSystems was introduced as a brand-new system after the hotel underwent extensive reconstruction, leading to its grand opening. Meanwhile, at the Esplanade Hotel Zagreb, Infor SunSystems replaced the existing system Scala.

The primary driving force behind the adoption of Infor SunSystems software at both hotels was to consolidate all financial functions into a single, centralized platform, providing Almanac Hotels with comprehensive financial numbers, KPIs, and reporting capabilities across their properties. Years back, LLP Group also helped implement SunSystems at the Almanac X Alcron Prague hotel. LLP Group’s expertise in local statutory requirements ensured that SunSystems was effectively localized for both hotels, meeting all necessary legal compliance.

SunSystems version 6.2 is interfaced with other systems, such as the Opera hotel system. Additionally, LLP Group implemented its own Bank Payment System which efficiently handles outgoing payments and incoming bank statements between the hotel banks and Infor SunSystems.

Moreover, at the Almanac Palais Vienna Hotel, LLP Group introduced the expense management system, expense@work, streamlining the entire expense approval process.

LLP Group’s successful implementations at the Esplanade Hotel Zagreb and Almanac Palais Vienna Hotel add to their extensive portfolio of high-profile hotel projects.
